

New Routes Launch Event

The New Routes launch event took place in Keynsham in November 2009.

There was a very high level of support for, and awareness of, New Routes and social prescribing prior to and following the launch. The launch event received lots of positive feedback and successfully brought together a wide variety of people from a range of sectors, representing different community groups. The event increased knowledge and understanding of New Routes, and other groups and resources that were represented, for example, Room 102 database.

Attendees at the New Routes launch event

New Routes Coordinator, Anna Sansom

New Routes Coordinator, Debbie Howitt

Drumming workshop
