

*Diagram: Timeline of successful cessation*

The timeline chart below illustrates rates of stopping smoking across the cohort at various stages in the referral pathway, from 'pre-intervention' (before the first meeting with a midwife), through to after birth.

Key		
<b>Red:</b> still smoking	<b>Amber:</b> cut down	<b>Green:</b> Not smoking

**Before the first intervention by the midwife (baseline)**

Smoking	39
Cut down	2
Stopped	0

**After the first intervention by the midwife:**

Smoking (including increased)	3
Cut down	34
Stopped	6

**Smoking rates during remaining pregnancy:**

Smoking (including increased)	13
Cut down	14
Stopped	16

**Smoking rates after birth**

Smoking	30
Cut down	1
Stopped	6
